³32 bits & 64 bits

2.2 Mac/Linux based Online Backup Client (5.0.x)

Application	Workstation	Server
File Permissions	X	X
File Ownership	X	X
MySQL version 5.0 or above		X

In case support is deprecated it means that our QA department is not testing new releases for this platform. The client software can still work and we'll provide support on it, but we no longer warrant the correct working in all cases. The dates are aligned with Microsoft's own end-of-life dates for support in the OS or application.
