

# Release notes for APS 2.2

**Release date:** June 15, 2020

**Build:** 2324

**Supported platform:** Acronis Cyber Cloud 9.0 or later

With this update, Acronis APS package brings support for additional Cyber Protection editions and offering items.

## What's new

1. Support for Acronis Cyber Cloud 9.0
  - a. New editions:
    - i. Cyber Backup - Advanced
    - ii. Cyber Backup - Disaster Recovery
    - iii. Cyber Protect - Standard
    - iv. Cyber Protect - Advanced
    - v. Cyber Protect - Disaster Recovery
  - b. New offering items:
    - i. G Suites Seats
    - ii. GMail (incl. Calendar, Contacts)
    - iii. Google Drive
    - iv. G Suite Shared Drive
    - v. Google Hosted Storage
    - vi. Office 365 Teams (to be available in Acronis Cyber Cloud in July-2020)
2. Application and service were rebranded:
  - a. Acronis Backup Cloud became Acronis Cyber Cloud
  - b. Acronis Backup service became Acronis Cyber Protection
  - c. All related information was updated:
    - i. Application settings
    - ii. UI elements
    - iii. Pop-up notifications
    - iv. Documentation
3. Support new Acronis Cyber Cloud user notifications:
  - a. Management Portal notifications
    - i. Quota overuse
    - ii. Scheduled usage reports
  - b. Cyber Protection notifications:
    - i. Failure
    - ii. Warning
    - iii. Success
    - iv. Daily recap about active alerts
4. During package upgrade, old backup and business notifications will be converted to the new format, using the following logic:
  - a. Backup Notifications became Management Portal Notifications
    - i. "Enable": both "Quota overuse notifications" and "Scheduled usage reports" will be enabled

- ii. "Disable": both "Quota overuse notifications" and "Scheduled usage reports" will be disabled
- b. Backup Notifications became Cyber Protection Notifications
  - i. "Send all types of backup notification": "Failure", "Warning", "Success" notifications will be enabled
  - ii. "Do not send any backup notifications": all notifications will be disabled
  - iii. "Send notifications about errors only": "Failure" notification will be enabled
  - iv. "Send notifications about errors and warnings": "Failure" and "Warning" notifications will be enabled
  - v. "Daily recap about active alerts" is disabled by default

### **Known issues and limitations**

1. Direct upgrade is supported only from version 2.0.3 (build 2070) or 2.0.4 (build 2104). If you have a version less than 2.0.3 installed, you need to update to 2.0.3 first.
2. PHP 5.6 only is supported
3. In case you are using Odin Automation 7.x and the current version of Acronis Cyber Cloud APS is lower than build 1884, please involve Odin to the update and refer to <https://kb.odin.com/en/131431>
4. Odin Automation 6.0, 7.0, 7.1, 7.2, 7.3, 7.4 and 8.0 are no longer supported
5. New offering item Office 365 Teams will be available in Acronis Cyber Cloud in July-2020. Before including it into service templates and service plans, please make sure it is available for your account in the Cloud.
