

Acronis Cyber Cloud

Grow Your Cyber Protection Business with a Platform Designed for Service Providers

Acronis Cyber Cloud is a platform that enables service providers to deliver cyber protection in an easy, efficient and secure way. With one SaaS solution, you and your customers gain access to hybrid cloud backup, disaster recovery, AI-based ransomware protection, file sync and share, and blockchain-based file notarization and e-signature services, all managed from a single console. These in-demand, add-on services help you to sell more and increase your customer retention.

ACRONIS CYBER CLOUD AT A GLANCE

INCLUDED SERVICES

Acronis Backup Cloud

The #1 hybrid cloud backup-as-a-service solution for service providers that protects more than 20 platforms, anytime, anywhere, and faster than anyone else.

Acronis Files Cloud

Designed exclusively for service providers, it delivers safe file sync and share in an easy-to-use, complete, and secure cloud-based solution.

SERVICE PROVIDER BENEFITS

Start fast with zero upfront cost

- No investment required with the Acronis-hosted model
- One simple deployment for multiple services
- Includes a ramp-up period for new partners

Satisfy your customers

- Control storage tiers and fees
- Balance RTOs and costs
- Work in native language (25 UI choices)
- Comply with regulations like GDPR and HIPAA
- Get AES-256 encryption of data at rest and in transit

Fits your business model

- Three deployment options: Acronis-hosted, hybrid, or service provider-hosted
- Integration with Autotask, ConnectWise Automate, ConnectWise Manage, cPanel, Flexiant, HostBill, Kaseya, CloudBlue, Plesk, WHMCS, and more
- RESTful management API for custom integration

Acronis Disaster Recovery Cloud

A turnkey, self-service solution that lets you protect your customers' workloads by recovering their IT systems and applications using the Acronis cloud infrastructure.

Acronis Notary Cloud

A blockchain-based service for file notarization, e-signing and verification for businesses of any size, designed exclusively for service providers.

Reduce churn and earn more

- Deliver in-demand backup-as-a-service
- Upsell disaster recovery add-on for high availability
- Cross-sell workload migration, file sync and share, and e-signature services with ease

Differentiate yourself

- Comprehensive white-labeling
- Flexibility to store data locally, in Acronis Cloud Storage, your own storage, or any third-party storage (e.g. public clouds)
- Protects more customer data sources than the competition

Apply unique technologies

- Acronis Active Protection against ransomware
- Acronis Notary and Acronis ASign for blockchain-based data verification
- Acronis Universal Restore for fast recovery to any hardware
- Acronis Instant Restore to recover VMs in mere seconds directly from backup storage

INTEGRATES WITH ACRONIS CYBER INFRASTRUCTURE

Optimized to work with the Acronis Cyber Cloud product suite, Acronis Cyber Infrastructure is a scale-out, cost-efficient and multi-purpose software-defined compute, networking and storage solution for the edge.
