

Acronis Data Cloud

A single solution to offer multiple modern data protection services to your customers

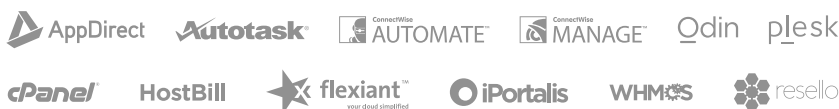

- ✓ Backup
- ✓ Disaster Recovery
- ✓ Anti-Ransomware Protection
- ✓ File Sync & Share
- ✓ Files Notarization and E-Signatures
- ✓ Software-Defined Storage

The cloud services market is exploding, with IDC reporting a 24.4 percent increase in spending during the past year and \$203 billion in public cloud sales expected by 2020. Acronis recast our data protection solutions to a cloud-delivery model so service providers like you can take advantage of this tremendous opportunity by quickly bringing new revenue-generating services to your customers.

Acronis Data Cloud is a platform that delivers data protection services with an unprecedented level of ease. With one installation, you and your customers gain access to backup, disaster recovery, file sync and share, notarization and e-signature services, all managed from a single console. These in-demand, add-on services mean you can sell more and increase your customer retention.

Native integrations with popular RMM and PSA systems

SOLUTIONS INCLUDED

Acronis Backup Cloud

A reliable hybrid cloud backup solution for service providers that protects more than 20 platforms, anytime, anywhere, and faster than anyone else.

Acronis Disaster Recovery Cloud

A turnkey, self-service solution, built upon Acronis Backup Cloud, that lets you protect your customers' critical workloads by instantly recovering their IT systems, applications, and data utilizing the Acronis cloud infrastructure.

Acronis Files Cloud

Designed exclusively for service providers, Acronis Files Cloud empowers office and mobile users with safe file sync and share in an easy-to-use, complete, and secure hosted cloud solution.

Acronis Notary Cloud

A blockchain-based service for file notarization, e-signing and verification for businesses of any size. It allows customers to ensure the integrity of business-critical data, while achieving regulatory transparency and decreasing security risks.

Acronis Storage

A universal, cost-efficient, easy-to-use, and scalable software-defined storage solution that combines block, file, and object workloads and uses industry-standard hardware. Acronis Storage is optimized to work with Acronis Data Cloud suite of products.

SERVICE PROVIDER BENEFITS

Start Fast with Zero Upfront Cost

- Just a few clicks to get up and running
