

Pricing for Acronis service provider partners

With pay-as-you-go pricing, you only pay for the services you and your clients use.

There are two pricing models — Per-workload and Per-GB. You can choose the one that is the best fit for each client, but each client can use only one. Usage commitments and higher volumes can qualify for discounted pricing.

Per-workload

The model is based on the number of workloads protected. It's best when there are fewer workloads with more data to protect. When backup data is self-hosted, this is all you pay. Acronis data center storage is available for an additional cost.

Per-GB

The model is based on the total amount of data protected from all workloads. It's best when there are more workloads or less data to protect. Your price per-GB depends on whether backups are self-hosted or stored in an Acronis data center.

Acronis Cyber Protect Cloud backup and core services

			US\$ per month	SKU	
Complimentary features: Device Discovery, Hardware Inventory, basic Malware Detection, Vulnerability Assessment, and more			0	SPDCMSENS	
			Per-workload	Per-GB	
	Units	US\$ per month	SKU	US\$ per month	SKU
Acronis hosted storage	GB	0.052 G1	SPDAMSENS	0.1404 G1	SPBAMSENS
		0.065 G2	SPD2MSSENS	0.1534 G2	SPB2MSSENS

Acronis Cyber Protect Cloud advanced packs

For some of your clients, Acronis Cyber Protect Cloud is all you need. But some workloads and systems require enhanced protections and capabilities. You can add Advanced Packs to individual workloads at any time.

	Units	US\$ per month	SKU
Advanced Security	Workload	1.30	SRIAMSENS
		3.64 G1	SRI1MSSENS
Advanced Security + Endpoint detection and response (EDR)	Workload	4.55 G2	SRI2MSSENS
		5.46 G3	SRI3MSSENS
Advanced Email Security (Perception Point)	Mailbox	2.47	SO4AMSENS
Advanced Data Loss Prevention	Workload	3.25	SRI5MSSENS
Advanced Management	Workload	1.95	SRHAMSENS
Advanced Automation	User	65.00	SQACMSSENS

Advanced packs above can be used as stand-alone services without any additional payments for Acronis Cyber Protect Cloud backup storage and workloads.

Advanced Backup

Server	Workload	13.00	SRDAMSENS
VM	Workload	5.20	SREAMSENS
Workstation	Workload	1.30	SRFAMSENS
Hosting server	Workload	1.30	SRGAMSENS
Microsoft 365	Seat	0.52	SQKBMSSENS
Google Workspace	Seat	0.52	SQBBMSSENS

Advanced Disaster Recovery

		0.078 G1	SVEAMSENS
Acronis hosted storage	GB	0.0975 G2	SVE2MSSENS
		0.117 G3	SVE3MSSENS
Partner storage	GB	0.0455	SVFAMSENS
Acronis hosted VM resources	Compute point ¹	0.078	SQYAMSENS
Acronis hosted public IP address	IP address	3.90	SEDAMSENS

¹ Applications running in Acronis environments during DR require compute resources (e.g., CPU, RAM). Contact your Acronis Cloud Advisor for more information.
